

**Possum Beach  
Cottage**  
Port Arthur, Tasmania

**Perfectly located just three minutes from the Historic site and right opposite the beach.  
Central to all the attractions of the Tasman Peninsula and the Sea Cliff Coast.**

**Hi and welcome to Possum Beach Cottage, Port Arthur's newest self-contained holiday premises.**

Possum Beach Cottage is located right opposite the beach at Carnarvon Bay in Port Arthur (the next bay around from the Historic Site). The picture below is the view from your lounge room and master bedroom... Imagine waking up to that each morning.

We offer you a quality, three-bedroom house that is fresh, clean and modern. The master bedroom contains a queen bed, as does the second bedroom. In the third you'll find two single beds each with their own pullout trundle bed underneath. That means we can sleep up to eight of you!

Possum Beach Cottage is fully self-contained. All you need is your own food hamper. There is a general store close by for everyday grocery items and hot takeaway food. There are also several restaurants in the local area.

On your doorstep are the white sands of Big Possum Beach, perfect for a dawn or dusk stroll, and sitting on your balcony enjoying the view with a bottle of wine.

**It's as simple as 1, 2, 3 to make a reservation...**

Possum Beach Cottage is fully automated. Accordingly, there is no reception desk and nobody to meet and greet you. You are free to arrive at any time of the day or night after 2pm.

1. Internet reservations only, and in real time. Don't wait days for someone to respond to a booking enquiry form. That's outdated and a waste of your time. See what's available right now. Book and pay online. Easy!
2. We'll E-mail you an electronic access code, which is your key to the property. Arrive when you want to (after 2pm) and let yourself in.
3. Check yourself out before 10.30am on your day of departure. All you have to do is lock up and close the door behind you.

**Port Arthur Historic Site**

Even for those only mildly interested, this site has a lot to see, and includes a boat ferry around the 'Isle of the Dead'. Your entry pass is valid for two days, so you'll be glad you decided to stay overnight on the Peninsula, a single day here is just not enough.

**Wondering what else to do?**

The Tasman Peninsula is a well kept secret. From the lush green valleys and casual mountains that drift into the glassy ocean, to the raw Tassie Gold sandstone cliffs, it's definitely alluring for those who want to experience nature. *Palmer's Lookout*

located on the hill behind Possum Beach Cottage is a great photo opportunity, and gives you a bearing for *bush walking, picnics, swimming, fishing, sea kayaking, diving or rock climbing* - some of the activities enjoyed by many in this abundant environmental area. For the golfers why not try 9 holes at the *Point Puer Golf Course*. It's only 2km down the road with breathtaking coastal scenery.

**Sea Cliff Coast – A Natural Wonder.**

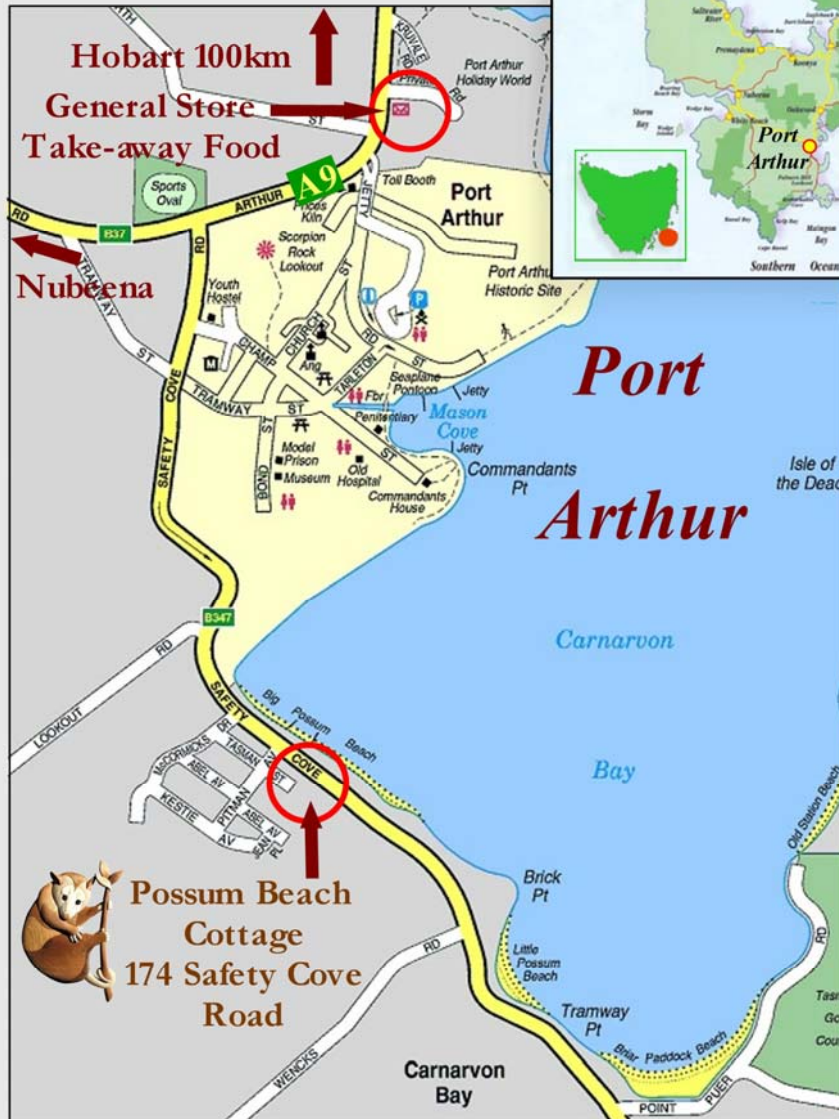

Some of the most stunning coastal scenery in Australia is to be found on the Tasman Peninsula. Awe inspiring is one term used to describe the huge columns of rock and granite that rise out of the ocean like great sentinels keeping watch over the waves.

Popular also are visits to the *Remarkable Cave*, only a five-minute drive from Possum Beach Cottage, and it's less than 20 minutes to the natural rock formations of *Devils Kitchen, Tasman Arch, Tasman Blowhole* and the amazing *Tessellated Pavement*.
